Professional Summary

Entry-level Full Stack Developer with hands-on experience in building responsive web applications using MERN stack (MongoDB, Express.js, React.js, Node.js). Strong understanding of REST APIs, CRUD operations, and database management. Passionate about developing scalable and user-friendly applications.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, Bootstrap
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Concepts:** REST API, CRUD Operations, Authentication
- **Tools:** Git, GitHub, VS Code

Projects

Full Stack Web Application (MERN)

- Developed a full-stack web application using React.js and Node.js with RESTful API integration.
- Implemented CRUD operations and user authentication.
- Designed responsive UI using Bootstrap and CSS.
- Managed database operations using MongoDB.

Student Management System

- Built a web-based system to manage student records using Node.js and MySQL.
- Developed backend APIs for data handling and validation.
- Improved data retrieval efficiency through optimized queries.

Education

B.Sc. Computer Science

Arc Viswanathan College

Training

Full Stack Development Course

Livewire, Mayiladuthurai

Additional Information

- Strong problem-solving and analytical skills
- Ability to quickly learn new technologies
- Good communication and teamwork
